

## TUNE-UP YOUR FURNACE

Avoid surprises, protect your investment.  
Maintain your **BURNER SYSTEM** today!

The burner system in the 2011-14 Model Year Hino Conventional trucks are very much like an expensive furnace unit in a home. It's an important part of the emission system; responsible for DPR Regeneration. Regular maintenance of the system is required to avoid a breakdown and damage to the DPR Particulate Filter.

### ONE-HOUR SERVICE:

- Replacement Kit: Burner Fuel Filter, Burner Fuel Nozzle, Ceramic Igniters and Flame Temperature Sensor.
- Hino Computer Diagnostics: Exhaust Brake adjustment, Burner Event Log (health report)

THE **HINO** OWNER ADVANTAGE.
